Deputy Director of Central Intelligence

SUBJECT : DD/NFA Activities

(These are activities of concern to and involving the Community's intelligence producers, conducted under DD/NFA auspices.)

1. The production enhancement projects for FY 1981 to 1982, and FY 1982 to 1983 are being examined to determine whether this program is providing the payoffs originally anticipated. This study, is aimed at a report to the DCI in early spring 1982.

2. The Community's major producers have been canvassed for their views on the relative priorities--in terms of greatest payoff from additional investment-- of the Capabilities '85 substantive challenges. The results were remarkably consistent with all agencies listing [redacted] first by a wide margin. The INR and NFAC rankings were identical and are shown below. They will be provided to the IC Staff.
